

The Blue Intelligence Climate Summit (BICS) 2026 provides a unique platform for organizations, industries, startups, research institutions, technology providers, NGOs, and government agencies to showcase their innovations, products, services, and sustainable solutions to a highly targeted audience from the blue economy, climate, marine, fisheries, environmental, and sustainability sectors.

Key Benefits for Exhibitors

1. Direct Access to Decision Makers

Connect with policymakers, government officials, industry leaders, investors, researchers, and development organizations.

Build relationships with key stakeholders influencing climate and blue economy initiatives.

2. Brand Visibility & Recognition

Showcase your organization's products, services, technologies, and innovations to a national and international audience.

Enhance brand credibility by associating with a premier climate and blue economy summit.

3. Lead Generation & Business Development

Generate qualified business leads from industry professionals, institutions, and potential clients.

Explore new markets and expand your customer base.

4. Product & Technology Demonstration

Demonstrate innovative solutions, equipment, software, and sustainable technologies in real-time.

Receive direct feedback from experts, practitioners, and end-users.

5. Networking Opportunities

Engage with delegates from academia, government departments, industries, startups, NGOs, and international organizations.

Establish strategic partnerships and collaborative opportunities.

6. Access to Research & Innovation Ecosystem

Interact with leading scientists, researchers, and academic institutions.

Explore opportunities for technology transfer, research collaboration, and pilot projects.

7. Investment & Funding Opportunities

Meet impact investors, CSR representatives, venture capitalists, and funding agencies interested in climate and blue economy ventures.

Present scalable solutions to potential funding partners.

8. Market Intelligence

Gain insights into emerging trends in:

- Blue Economy
- Marine Conservation
- Climate Adaptation
- Sustainable Fisheries
- Coastal Resilience
- Ocean Technologies
- Renewable Energy
- Environmental Monitoring

9. Media Exposure

Benefit from summit-wide publicity, media coverage, digital promotions, and social media visibility. Increase awareness of your organization among a wider audience.

10. Recruitment & Talent Acquisition

Connect with skilled students, researchers, innovators, and young professionals seeking opportunities in climate and marine sectors.

Identify potential interns, researchers, and future employees.

11. CSR & Sustainability Positioning

Demonstrate your commitment to Sustainable Development Goals (SDGs), environmental stewardship, and responsible business practices.

Showcase CSR initiatives and sustainability achievements.

12. Recognition as a Sustainability Leader

Position your organization as a contributor to climate action and sustainable ocean development.

Gain recognition among national and international stakeholders.
